

THIS GAME HAS REALLY GOT LEGS.

SPIDER-MAN[™] the VIDEOGAME

If you're looking for a game with lasting popularity, check out SPIDER-MAN[™] THE VIDEOGAME from Sega. Up to four players can take part in the adventures of Marvel Comics' famous Spider-Man! Players can play the role of Spider-Man, Sub-Mariner[™], "Prowler"[™] or the Black Cat[™] with the unique ability to switch from one character to another at any point in the game. The dedicated upright features Sega's exclusive 32-bit technology, a 25-inch monitor, continuation and replay options, and an innovative Zoom In/Zoom Out format, in which the size and movements of the characters change in various scenes. And with sixteen scenes taking place in four chapters, Spider-Man offers great depth of play. The non-stop action features six of Spider-Man's enemies — Kingpin[™], Sandman[™], Scorpion[™], Green Goblin[™], Venom[™], and the Lizard[™] — to guarantee strong player recognition of both heroes and villains. With that kind of player appeal, Spider-Man has proven itself as a game with legs — in more ways than one!
